

Master Volunteer Tabling Representatives Wanted

Join our amazing volunteer community this year by signing up to become a representative of the Grand Canyon Trust Volunteer Program at our local tabling events. These include Earth Day, Flagstaff Festival of Science, Flagstaff Sustainable Living Fair, and more! We are looking for enthusiastic, fun volunteers to help us spread the word on GCT events, volunteer opportunities, and ways to get involved as a conservation steward.

Have you wanted to volunteer in the past, but have had a difficult time committing to days in the field? Are you already a member of our team and want to share your stories with others? Here's your chance to get involved on a local level for just a few hours a couple of times a year! We will provide training, materials, and all other items needed for a successful tabling event. We just ask you to commit to two events for 2010.

Meet new people, share your experiences, and help us educate the community about our amazing organization today!

- Earth Day: April 17, 2010
- Cinco De Mayo: May 5, 2010
- Flagstaff Sustainable Living Fair: September 12, 2010
